SPG Export

Founded by Mr. Lotfi Ghozzi, SPG Export is a Tunisian handmade pottery exporting company.

Terracotta pottery which we want you to benefit was inspired by a rich history and produced by experienced craftsmen with overflowing creativity.

The jars, these old food containers, have long found their place either inside or outside homes. Often associated with the Roman and Punic era, they bring a touch of softness and warmth to our decorations.

We offer a vast variety of decorative jars and pots for your garden or balcony. Also by choosing SPG Export, you participate in helping to revive the Tunisian economy that has been recovering from the Jasmine Revolution in 2011 by helping local artists.

Advantages of Terracotta pottery :

- Retains humidity on hot days.
- Esthetically pleasing and authentic.
- Very durable and stable.
- Ecological and durable.
- Its porosity permitting the evaporation of water from the soil prevents the stagnation of water and root rot.
